THE KYOCERA CLOUD CONNECT APP **ENABLES** USERS TO **EASILY PRINT** FROM AND **SCAN DIRECTLY TO** THE CLOUD FROM SELECT KYOCERA MFPS.

Businesses are increasingly turning to cloud technologies to enable them to store and share large quantities of data. This facilitates the ability to conduct business on the go and at multiple locations, by allowing easy access to stored files.

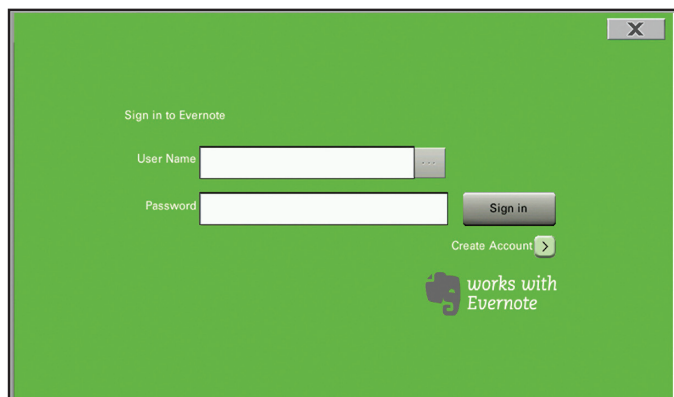

WITH KYOCERA CLOUD CONNECT, IMPORTANT DATA GOES WITH YOU WHEREVER YOU GO!

- › Enter your Evernote or Google Drive account login information in the Cloud Connect application screen to access your files from the device panel of any HyPAS-enabled MFP.
- › Scan documents directly to your cloud account and tag it with pertinent information.
- › Choose 'Print Document' to search and retrieve your previously stored Evernote and Google Drive files.

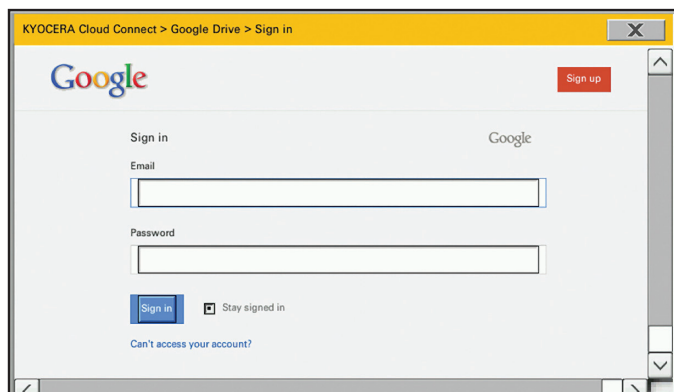

HYPAS

KYOCERA's HyPAS (Hybrid Platform for Advanced Solutions) is a powerful and scalable software solution platform. Through direct enhancement of the MFP's core capabilities, to the integration with widely accepted software applications, HyPAS will enhance your specific document imaging needs, resulting in improved information sharing, resource optimization and document workflows.

KYOCERA meets your ever-changing demands with KYOCERA Cloud Connect, an exceptional application that enables you to retrieve and print files from Evernote® and Google Drive™, cloud storage providers, directly from any KYOCERA HyPAS-enabled MFP. You can even upload scanned files to Evernote and Google Drive – from the MFP, without needing a computer!

KYOCERA Cloud Connect is your bridge to the cloud, connecting you effortlessly to all of your files and giving you total control over when and where you access and print them. Most importantly, you don't even need your smart phone, computer or tablet to be able to access, store, print and scan your documents, just your KYOCERA MFP.

THE BENEFITS OF KYOCERA CLOUD CONNECT
